

Rules for Opportunities in an Activity Choice

For each Collection Period entry for an Activity Choice, the following elements must be documented:

- The materials that were used (i.e. text details or manipulatives)
- The date(s) the opportunities were provided
- The accuracy score the student earned

Within each of the 5-8 opportunities for an Activity Choice, the following elements must be documented:

- The problem or question presented to the student
- The 2-3 response options presented to the student
- The expected response (correct answer)
- The response option the student selected
- If the student response was correct or incorrect
- The Level of Assistance (LOA) provided to the student

*Across the 5-8 opportunities for an Activity Choice, **at least one** of the following elements must change:*

- The problem or question presented to the student
- The response options presented to the student
- The order the response options are presented
- The materials that are used (i.e. text or manipulatives)
